

Timberline®
America's #1-Selling Shingles

Millions of families have found shelter and peace of mind under a Timberline® roof.

We protect what matters most™

It's never just a roof. It's a promise, kept.

Providing a home means making a promise — of shelter, security, and stability. It says to the people who count on you, "You're going to be safe, dry and warm under this roof."

Choosing a genuine Timberline® roof is a great way to help keep that promise.

It's a system, built to protect

A roof is so much more than shingles. It's layers of protection, working together to keep your home safe from wind, rain, snow, and even sun.

It's the first name in architectural shingles

Literally. When GAF introduced Timberline® Shingles more than 50 years ago, we created a whole new category of roofing. Known as “laminated” or “architectural” shingles, Timberline® set a new standard for innovation and style. Today, a Timberline® roof protects 1 in 4 U.S. families, and it's the #1-selling shingle brand in North America.

It's engineered to endure

A GAF roof is built tough. Proprietary GAF Dura Grip™ Adhesive seals each shingle tightly and reduces the risk of shingle blow-off. In fact, GAF Timberline® Shingles are warranted to withstand winds up to 130 mph.¹

And now, any Timberline® Shingles that feature LayerLock™ Technology may qualify for the WindProven™ Limited Wind Warranty — the industry's first wind warranty with no maximum wind speed limitation when installed with the required combination of four qualifying GAF accessories.²

Timberline® Shingles have earned the highest roofing fire rating — UL Class A, Listed to ANSI/UL 790.

See how GAF LayerLock™ Technology mechanically fuses and strengthens the common bond between shingle layers.

¹15 year 130 mph wind speed coverage requires special installation and use of GAF Starter Strip Shingles; see *GAF Shingle & Accessory Limited Warranty* for details.

²15-year WindProven™ limited wind warranty on Timberline® Shingles with LayerLock™ Technology requires the use of GAF Starter Strips, Roof Deck Protection, Ridge Cap Shingles, and Leak Barrier or Attic Ventilation. See *GAF Roofing System Limited Warranty* for complete coverage and restrictions. Visit gaf.com/LRS for qualifying GAF products. It's making a difference

GAF Advanced Protection® Shingle Technology reduces unnecessary waste of natural resources by using ideal amounts of asphalt and limestone. Advanced Protection® Shingles are also weight-optimized to minimize fuel use, and result in less landfill waste when the shingles are eventually replaced. And finally, GAF supports shingle recycling programs that turn old roofs into new roads.
